Dear Madam/Sir,

Hello! We are postgraduate students from the School of Tourism Sciences at Beijing International Studies University. We are currently conducting a survey and research on children's virtual tourism experience and cultural identity status regarding the Old Summer Palace Ruins Park, aiming to understand the role and connection of virtual tourism in children's cultural identity. The Old Summer Palace Ruins Park is an important carrier and precious source for spreading Chinese historical stories. It showcases the outstanding traditional cultural elements it contains and reveals the crucial information in the course of human history, which can help the people gain a deeper understanding of Chinese culture, enhance their cultural identity, and strengthen their cultural confidence. For the questions in the questionnaire, you just need to rate them according to your true feelings. Your opinions will be anonymously regarded as important materials for our research. The collected data will only be used for research purposes and will never disclose any information you fill in or be used for any commercial purposes. You can fill it out with peace of mind. Thank you for your support and assistance!

Use the Likert five-point scale, where 5 represents "strongly agree" and 1 represents "strongly disagree"!!!!!!!!
